

FIRST® Robotics Info Night

FOR INSPIRATION & RECOGNITION OF SCIENCE & TECHNOLOGY

Are you or your students interested in Robots?

FIRST programs excite kids about science and technology and inspire them to embrace learning in a hands-on and investigative way. Whether it's a CLASS PACK for the classroom or a *FIRST* team that provides involvement after school or at a community organization or within a group of friends, your students will be immersed in technology and have fun doing it!

Wednesday Night, August 18, 2021

Remote meeting

Time: 7:00 PM

Zoom info to be distributed prior to the event and posted here:

<https://firstlongisland.org/infonight>

Participants in this virtual Zoom meeting can:

- Learn how to start teams (please note we are unable to place students on existing teams) and network with others who would like to do the same
- Learn about resources available to assist coaches and teachers
- Learn about the upcoming season and how it might work
- Learn about how Class Packs can support and enhance your classroom instruction while satisfying all standards
- Learn about *FIRST* Robotics Competition, *FIRST* Tech Challenge, and the three age divisions of *FIRST* LEGO League

All are welcome! This meeting is for adults as opposed to students and is open to any parents, teachers, administrators, leaders of community organizations, or anyone else who would like to learn more about *FIRST* programs. And, potential volunteers can learn about opportunities to participate at remote or on-site events

School-Business Partnerships of Long Island will present the full progression of *FIRST* programs for students from ages 4 through 18:
